Hi Steve,

Thanks, I'll give him a call.

Curt

Hi Curt,

I've been informed by Derek Ragon that he is available for your contact at your earliest convenience on these matters pertaining to SEMS (i.e. technical issues, questions on contract, etc).

Derek is the Team Leader for the Information Management Team in EPA Region 6 and his contact info is: 214.665.7362, ragon.derek@epa.gov

Thanks,

Stephen L. Tzhone

Hi Stephen,

Could I get more specific information on the "technical issues with [EPA's] major system migration?"

From years of working with IT departments and contractors in business, I know better than to accept this standard, generic "technical issues" excuse from technologists.

To my mind, it's like sanitation workers saying they have a "garbage issue" when customers call to complain about their trash not being picked up.

Curt

Hi Stephen,

Thanks for the response.

May I ask: who are the contractors engaged for this work, and what are the identifying contract numbers?

Hi Curt,

I have heard back from the Information Management Team regarding your question on SEMS deployment.

The information is: EPA is continuing to work thru technical issues with our major system migration and apologize for the delay.

I do anticipate that the red error message you see will be updated.

Thanks,

Stephen L. Tzhone

Hi Curt,

Thanks for the email. Your question is valid and I have requested clarification from the Information Management Team.

I'll let you know once we receive the information, thanks.

Thanks,

Stephen L. Tzhone

Dear Stephen,

Please see the error message in red on attached screen shot found at <http://cumulis.epa.gov/supercpad/cursites/csinfo.cfm?id=0600124> which states:

"The Superfund Program is in the process of deploying a new information system, the Superfund Enterprise Management System (SEMS) which is replacing CERCLIS. CERCLIS was frozen as of November 12, 2013. Updated data will become available in early 2014 when SEMS is fully operational."

Can you tell me when the "Superfund Enterprise Management System (SEMS)" with its "updated data will become available in early 2014" as the site states?

Thank you.

Curt Grisham
